   d. Eyewear

2. Which of the following personal protective devices would you use for changing visibly soiled bedding?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear

3. Which of the following personal protective devices would you use for bleeding or pressure application to control it if soiling is likely?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear

4. Which of the following personal protective devices would you use for blood glucose (capillary) testing?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
5. Which of the following personal protective devices would you use for dressing removal or change for wounds with large amounts of drainage?
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

6. Which of the following personal protective devices would you use for emptying drainage receptacles, including suction containers, urine receptacles, bedpans, emesis basins? Soiling or splattering is unlikely.
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

7. Which of the following personal protective devices would you use for peritoneal dialysis?
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

8. Which of the following personal protective devices would you use for removal of fecal impaction?
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

9. Which of the following personal protective devices would you use for fecal incontinence, placement of indwelling catheter, and emptying bag?
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear
10. Which of the following personal protective devices would you use for I.V. or intra-arterial line (insertion, removal, tubing change at catheter hub?

   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

11. Which of the following personal protective devices would you use for ostomy care and irrigation?

   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

12. Which of the following personal protective devices would you use for invasive procedures outside the sterile field?

   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

13. Which of the following personal protective devices would you use for wound irrigation?

   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

14. Which of the following personal protective devices would you use for specimen collection (blood, stools, urine, sputum or wound)?

   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear
15. Which of the following personal protective devices would you use for insertion or irrigation of nasogastric (NG) tube?
   
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

16. Which of the following personal protective devices would you use for tracheostomy suctioning and cannula cleaning?
   
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

17. Which of the following personal protective devices would you use for urine and stool testing?
   
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear

18. Which of the following personal protective devices would you use when dealing with an acute care patient that has conjunctivitis (Adenovirus)?
   
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear  
   e. N95 respirator

19. Which of the following personal protective devices would you use when dealing with an acute care patient that has a respiratory tract infection (Adenovirus)?
   
   a. Gloves  
   b. Gown  
   c. Mask  
   d. Eyewear  
   e. N95 respirator
20. Which of the following personal protective devices would you use when dealing with an acute care patient that has bronchiolitis (respiratory syncytial virus)?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator

21. Which of the following personal protective devices would you use when dealing with an acute care patient that has SARS (severe acute respiratory syndrome – coronavirus)?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator

22. Which of the following personal protective devices would you use when dealing with an acute care patient that has dermatitis?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator

23. Which of the following personal protective devices would you use when dealing with an acute care patient that has Ebola viral disease?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator

24. Which of the following personal protective devices would you use when dealing with an acute care patient that has epiglottitis (Streptococcus)?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator
25. Which of the following personal protective devices would you use when dealing with an acute care patient that has German measles (Rubella virus)?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator

26. Which of the following personal protective devices would you use when dealing with an acute care patient that has seasonal influenza?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator

27. Which of the following personal protective devices would you use when dealing with an acute care patient that has lice (Pediculosis)?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator

28. Which of the following personal protective devices would you use when dealing with an acute care patient that has measles (Rubeola)?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator

29. Which of the following personal protective devices would you use when dealing with an acute care patient that has mumps?
   a. Gloves
   b. Gown
   c. Mask
   d. Eyewear
   e. N95 respirator
30. Which of the following personal protective devices would you use when dealing with an acute care patient that has pneumonia (*Mycoplasma pneumoniae*)?

a. Gloves  
b. Gown  
c. Mask  
d. Eyewear  
e. N95 respirator

31. Which of the following personal protective devices would you use when dealing with an acute care patient that has whooping cough (Pertussis)?

a. Gloves  
b. Gown  
c. Mask  
d. Eyewear  
e. N95 respirator

32. Which of the following personal protective devices would you use when dealing with an acute care patient that has a common cold (*Rhinovirus*)?

a. Gloves  
b. Gown  
c. Mask  
d. Eyewear  
e. N95 respirator

33. Which of the following personal protective devices would you use when dealing with an acute care patient that has smallpox (*Variola major virus*)?

a. Gloves  
b. Gown
